## Flutter Developer & Computer Science Student

Experienced in building cross-platform mobile apps with Flutter, Firebase, and REST APIs. Proven ability to design, develop, and deploy responsive applications through internships, academic projects, and personal initiatives.

### EDUCATION

#### Pharos University

Bachelor of Science in Computer Science (Expected Jun 2026)

Alexandria, Egypt

Sep 2022 – Jun 2026

### EXPERIENCE

#### Flutter Developer Intern

Route IT Training Center

Jul 2024 – Oct 2024

Alexandria, Egypt

- Developed 5+ cross-platform apps with dynamic and responsive UIs using Flutter
- Integrated REST APIs to fetch and post data, handling 1,000+ requests weekly
- Applied state management patterns (Bloc, Provider) reducing app crashes by 20%
- Implemented Firebase Authentication and Realtime Database with 99% uptime
- Deployed and tested mobile applications across Android and iOS devices

### HIGHLIGHTED PROJECTS

#### BioSync AI | Flutter, Firebase, BLE, AI

Graduation Project

- Designed and developed a smart healthcare app with AI-based risk prediction and personalized recommendations
- Collected and processed 500+ user health data points via custom smart band (heart rate, steps, activity)
- Implemented Firebase backend for authentication, Firestore, storage, and cloud functions with 99% uptime

#### E-Commerce App | Flutter, Firebase, REST API

Training / Personal

- Built a small-scale online store with authentication, product listing (5+ items), cart & checkout features
- Implemented theming support (Dark/Light mode) for enhanced user experience
- Created an admin dashboard to manage products and orders, minimizing human errors in data handling
- Integrated Firebase backend for authentication, Firestore database, and real-time updates

#### Movies App | Flutter, REST API

Team Project – Route Training

- Collaborated with a team to develop a movies application fetching 1,000+ titles from an external API
- Implemented features such as search, filtering, paging, and caching reducing API calls by 40%
- Contributed to designing responsive layouts and ensuring smooth performance across devices

#### Quran MP3 App | Flutter, Firebase, Audio Streaming

Personal Project

- Integrated Quran reciters API to stream and download 200+ audio surahs
- Added Google Sign-In and local favorites system via Firebase Authentication
- Enabled offline playback and efficient audio storage management, improving retention by 25%

#### Weather App | Flutter, REST API, Bloc

Personal Project

- Developed a cross-platform weather application using Flutter and OpenWeather API
- Implemented state management with Cubit/Bloc for loading, success, and error states
- Added city and country search with pull-to-refresh functionality
- Integrated 5-day forecast with dynamic charts and weather details
- Designed dynamic UI with day/night theme switch and Lottie animations for weather states

### TECHNICAL SKILLS

**Languages:** Dart, Python, Java, C#

**Frameworks/Technologies:** Flutter, Bloc, Provider, Firebase, RESTful APIs

**Developer Tools:** VS Code, Android Studio, Git, GitHub

## SOFT SKILLS

---

Detailed, Dynamic, Smart

Problem-solving, Teamwork, Adaptability, Communication, Leadership, Time Management

## ACCOMPLISHMENTS

---

Ranked 95th out of 146 teams in ECPC Qualifications Contest Day 3 – 2024 (Egyptian Collegiate Programming Contest)

Flutter Development Experience: 1+ year (internships, academic and personal projects)
